SUMMARY

I am passionate about continuous learning and growth, with a strong foundation in .NET development, with hands-on experience gained through building personal and academic projects. Skilled in designing and developing web and desktop applications using C#, SQL Server, HTML, CSS, and JavaScript. Applied OOP principles, clean architecture, clean code practices, and database integration while working on real-world inspired projects such as E-Commerce platforms and Management Systems, recognized for problem-solving, teamwork, communication, and adaptability, with a proven commitment to delivering quality solutions. Seeking an opportunity to contribute as a .NET Developer, leveraging strong technical skills in software development, debugging, API integration, and database management to build impactful applications.

TECHNICAL SKILLS

Languages: C#, HTML, CSS, JavaScript

Frameworks & Libraries: ASP.NET Core, WinForms, Tesseract OCR, React, jQuery, Bootstrap, Tailwind CSS

Databases: SQL Server, MySQL

Tools: Git, GitHub, Visual Studio, VS Code

Concepts: OOP, REST APIs, MVC Architecture, Razor

PROJECTS

AI-Powered OCR Desktop Application   *Sep 2025*

- Built a C# WinForms application integrated with Tesseract OCR (v5) for extracting text from images.
- Implemented preprocessing and recognition features to improve accuracy.
- Demonstrated practical use of AI/ML models within a desktop software environment.

Contact Management System (WinForms)   *Jul 2025*

- Developed a desktop CRUD app with search and filtering.
- Integrated SQL Server with ADO.NET for database operations.

E-Commerce Website (MVC)   **May 2025 – Jun 2025**

- Built a full-featured web app with user authentication and product management.
- applied registration, purchase process, and admin dashboard.

Restaurant Management System (MVC)   *Mar 2025 – Apr 2025*

- Created a system for menu, reservations, and orders.
- Applied Entity Framework Core and Repository Pattern for clean architecture.
